

Knowledge sharing to unlock African energy opportunities at Windaba 2019

Knowledge sharing is a key element to driving and sharing access to opportunities and **'Unlocking renewable power for African economic development'**. At Windaba 2019, we have created the platform for necessary conversations between stakeholders to a seamless energy transition for the Continent.

The strategic partnership with the Africa-EU Energy partnership (AEEP) with Windaba Conference and Exhibition brings valuable support for the Knowledge Stream of this year's conference programme. The AEEP, offers a long-term strategic framework for strategic dialogue between Africa and the EU on sustainable energy. Providing key input and supporting instruments for over a decade, it has been setting the agenda, providing a platform for high-level political dialogue and representing a shared voice for Europe and Africa. Visit www.windaba.co.za and view this year's [programme](#).

Don't miss Breakaway 8: Knowledge stream supported by the Africa-EU Energy Partnership

Join Prof Mark Swilling, Chair DBSA and Prof, University of Stellenbosch (SUN) as the facilitator for Breakaway 8: How do we gather, make useful and disseminate knowledges for an African Energy Transition?

Date: Tuesday, 8 October 2019
