

Windaba Industry Forum – Market Leaders driving economic development

Windaba Conference and Exhibition has become the leading business conference for wind energy professionals in Africa. As the annual gathering for the sector, Windaba conference programme provides the most relevant insights to guide strategic decision-making. Hosted by the South African Wind Energy Association (SAWEA) in proud partnership with the Global Wind Energy Council (GWEC) the event takes place on 8 & 9 October at the Cape Town International Convention Centre.

This year's programme looks to 'Unlocking renewable power for African economic development'. Windaba has gathered a formidable line-up of domestic and global wind market leaders participating in South Africa's Renewable Independent Power Producers' Programme (REIPPPP). Don't miss this year's INDUSTRY FORUM, as we discuss: Job creation and local manufacturing: What can be unlocked in the SADC if 18 GW is built by 2030?

Book your participation today.
